EDUCATION

Loyola Marymount University | Los Angeles, California | GPA: 3.24

August 2022 - May 2026

- Bachelor of Business Administration | Major: Information Systems & Business Analytics
- Relevant Coursework: Database Management Systems, Developing Business Applications with SQL, Programming for Business Applications, Machine Learning, Business Information Technology, Marketing for Business Communications, Strategic Business Integrations

Foundation for International Education | London, England

August 2024 - December 2024

- Relevant Coursework: Managing People & Organizations, Business Ethics & Sustainability

PROJECT EXPERIENCE

Retail Planning Analytics - SKIMS Market | Python, SQL, dbt, Snowflake, Streamlit, GitHub Actions End-to-end analytics engineering pipeline

- Built a full data pipeline ingesting US Census Bureau monthly retail sales data via REST API into Snowflake, transforming it through a dbt star schema, and deploying an interactive Streamlit dashboard to surface seasonal demand KPIs for the shapewear and intimates category
- Quantified 7 years of retail demand patterns and translated findings into an inventory positioning recommendation
- Automated the full extract-transform-load pipeline with GitHub Actions on a monthly schedule and built a queryable industry knowledge base from web-scraped sources, demonstrating full-stack analytics engineering from raw data to business recommendation

Data Analytics Project | Python, pandas, NumPy, Matplotlib

Exploring an Intersection of Environmental Social Governance Scores and Financial Performance of Manufacturing Firms

- Collaborated with a team in cleaning and preparing a raw dataset using Python, handling duplicate variables and outliers
- Analyzed trends and customer-related patterns to generate insights supporting data-driven decision-making and business performance
- Developed data visualizations to communicate key findings
- Translated analytical results into written insights and business-focused recommendations

WORK EXPERIENCE

Sipple Hydration | *Business Development Trainee Intern* | London, England

November-December 2024

- Conducted market research to identify potential clients, customer segments, and partnership opportunities
- Supported client outreach efforts and tracked engagement outcomes to evaluate partnership strategy effectiveness
- Closely assisted and led potential client meetings, presenting sustainability initiative and developing plans to partner
- Collaborated with marketing team to brainstorm and produce creative strategies to enhance brand presence and customer engagement on social media platforms

TECHNICAL & CREATIVE SKILLS

Data & Analytics

- Microsoft Excel (Certified): Data cleaning, pivot tables, formulas, and reporting
- SQL: Data retrieval, joins, window functions, CTEs, and analytics
- Python: REST API integration, web scraping, ETL pipeline development, and data analysis using pandas, NumPy, and Matplotlib
- Snowflake: Cloud data warehousing and schema design
- dbt: Data transformation, star schema modeling, and pipeline testing
- Streamlit: Interactive dashboard development and cloud deployment
- Tableau: Business intelligence dashboards and data visualization

Tools

- GitHub Actions: Automated ETL pipeline scheduling
- Git / GitHub: Version control and collaborative development
- Microsoft Office: Excel, PowerPoint, Word, Teams, Outlook

Certifications & Learning

- Microsoft Excel Certification
- DataCamp: Python fundamentals, data manipulation with pandas, data visualization, and machine learning

Languages

- Fluent in Spanish

Professional Strengths

- Collaboration: Experienced working cross-functionally to deliver high-impact results
- Problem Solving: Analytical mindset for identifying insights and improving processes
